## **Design Choices:**

I obviously wanted a home page, but I wanted it not to have any links other than the main links to my pieces of work. That way it would be less cluttered and I could focus the homepage on explaining who I am as a person and a Professional Writer. The other pages were split by the three largest categories I seemed to have, with three pieces of work on each (subject to change).

Finally, the contact page was simply for all of my links to social media and email.
